

Rondinette

Lightly rolled french croissants can be made quickly by hand-feeding pre-cut triangles to the SEEWER RONDO Rondinette croissant moulder.

The Rondinette can be used either as an independent machine with the triangles being produced by a simple hand cutter, or as an accessory to the SEEWER RONDO Cutomat or Junior Cutting and Make-up Conveyor.

- ① Feeding of pre-cut triangles
- ② Cutting device for Croissants
- ③ General view Rondinette
- ④ Traying-up of Croissants

Technical Data

Rondinette SGRR

Length	580 mm
Height	330 mm
Width	345 mm
Conveyor belt width	260 mm
Electrical loads:	
Tension	220/380 V, 50 Hz
Power	0.1 kW
Weight	25 kg

Subject to technical changes without notice.
