

# SFT cutting and make-up conveyor

The stainless steel SEEWER RONDO SFT Cutting and make-up conveyor is the perfect solution for the uniform cutting and make-up of puff, danish, croissant and short pastry. Cutting, depositing, filling, folding and traying-up can be carried out as a continuous process.

Used in conjunction with a special Rondo Dough Brake fitted with an additional slow speed, the finished pastry can be transferred without reeling on to the production line. A self-tensioning cutting mechanism ensures perfect cutting whatever the pastry shape.

An open base, retractable tray support and mobile trolley for auxiliary equipment are standard. A specially fitted drawer can also be supplied to store cutters when not in use.

By revolving the cutting stations 180° a stainless steel cover can be fitted transforming the cutting conveyor in to a work table. Other accessories are available to ensure a wide application for your SFT cutting and make-up conveyor.

- ❶ Cutting and Make-up Conveyor SFT 360
- ❷ Top Cover in stainless steel
- ❸ Fine pastry production line

## Technical Data

Mod.	SFT 260	SFT 360
Length	2650 mm	3650 mm
Width	770 mm	770 mm
Conveyor belt height	920 mm	920 mm
Conveyor belt width	590 mm	590 mm
Belt speed	6 cm/s	6 cm/s
Electrical loads		
Tension	220/380 V, 50 Hz	
Power	0.12 kW	0.12 kW
Net weight	120 kg	135 kg
