

# INCREASE PRODUCTION AND REDUCE COSTS SAVE TIME AND MONEY

The Robinson's PM30 "In-Tray" Slicing Machine is a revolution in small-medium production runs for tray baked goods.

**Much faster than hand slicing on Flapjack, Brownies, Sponge, Shortbread and Caramel Shortbread**

### FAST

### EFFICIENT

### SAFE + HYGEINIC

### INCREASE QUALITY

## FEATURES

The PM30 has all the features of simple automation having been designed with ease of use, safety and reliability in mind.

### SIGNIFICANTLY FASTER

When compared with hand slicing the PM30 is many times faster. It allows consistent results from the start to the end of the day. Portion control is accurate and the product is now sliced consistently.

### ECONOMIC PRICE

The PM30 is an economic priced slicing machine only requiring an air supply giving consistent results all day and suitable for the small, medium and large bakeries. Contact us for the latest price information.

### SIMPLE MAINTENANCE

Very easy to maintain and adjust with simple equipment. Very easy to take apart for cleaning and a set of new blades can be changed in less than a minute.

### EASY WASH DOWN

Dismantles into easy clean sections without lots of complicated tools. Will withstand jet-washing and most parts are stainless steel or PTFE, to avoid corrosion.
